

Master Carrier Agreement - BlueRidge Freight (2024)

Service levels

On-time delivery commitment: 96% for FTL, 93% for LTL, measured monthly against the scheduled delivery date in the tender. A delivery is late after the appointment window closes, except for documented weather closures and shipper-caused dock delays.

Falling below commitment for two consecutive months triggers a corrective-action review with Jordan P.; three months triggers lane-level rate renegotiation rights for Cascadia.

Claims: concealed damage must be filed within 5 business days of delivery with photos and the delivery receipt; carrier liability is \$25/lb for LTL unless declared value is filed.

Master Carrier Agreement - BlueRidge Freight (2024)

Rates, surcharges, tenders

Contract rates per the freight rate card (see: Freight rate card dataset) are fixed through 2025-06-30. Fuel surcharge floats weekly against the national diesel index with a 4-week trailing average; no other accessorials apply without pre-approval.

Tenders must be accepted or declined within 4 business hours; a declined tender releases the load to the backup carrier without penalty. Peak-season capacity: BlueRidge guarantees 85% of forecast truckload volume submitted 6 weeks ahead (see: Peak season surge playbook).
